

SFS Project Leap Data Deep-Dive, Integration Vision and Working Session Asks

A field-level analysis of the SFS Project Leap use-case document, translated into source-system readiness, integration routes and concrete asks for the next working session.

Prepared for: Shriram Farm Solutions

Prepared by: Conformal

Date: May 18, 2026

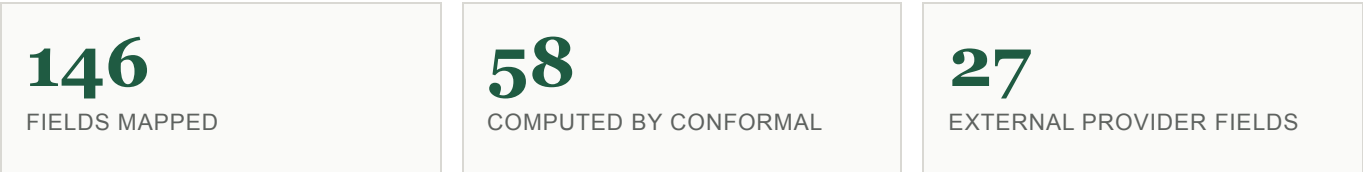

1. Purpose

SFS shared the Project Leap use-case document with Conformal. We decomposed the 15 custom-build use cases into the individual fields needed to move from prototype to production, mapped those fields to likely source systems, and translated the result into integration routes and working-session asks.

Important: this is a data-readiness working paper, not a final scope or commercial proposal. The first SFS working session should validate owners, extracts, schemas, join keys and data quality before production scope is committed.

2. Executive summary

- We mapped **146 fields** across **15 custom-build use cases**. Logistics remains a separate buy-and-customise vendor/TMS track.
- The readiness split is **33 Available**, **19 Partial** and **94 Unavailable**.
- The 94 Unavailable fields are not 94 blockers. **58** are computed by Conformal, **27** are external feeds Conformal can source, and roughly **9** require SFS workflow or master-data decisions.
- Recommended Wave 1: Enterprise Assistant, Field Performance Tracking Dashboard and Dealer Profiles.

3. Recommended sequencing

SEQUENCE	USE CASES	WHY THIS COMES HERE	FOUNDATION CREATED
Wave 0: foundation	Shared data layer	Required for trust, speed and re-use	Raw landing, standard columnar layer, ID crosswalks, metric dictionary, access control and audit trail
Wave 1 build	Enterprise Assistant, Field Performance, Dealer Profiles	Strong SFS-owned data base and direct ROI alignment	Enterprise KPI mart, field performance mart, dealer 360 and semantic agent tools
Wave 1 discovery / Wave 2 build	Historical Spend	SAP purchase base is strong, taxonomy and BPV require procurement sign-off	Spend cube, vendor/material dimensions, variance and anomaly framework
Wave 2 build	Product/Partner Visibility, Warehouse Stock, Scheme Chatbot, Churn Risk, Vendor ID	Mostly owned data, but requires definitions and source-owner validation	Product/partner mart, stock mart, scheme eligibility, churn labels and vendor scoring

SEQUENCE	USE CASES	WHY THIS COMES HERE	FOUNDATION CREATED
External-data discovery	Negotiation Prep, Should-Cost, Import Analysis, Vendor Credit/Fraud	Depends on EXIM, commodity, GST, MCA, credit or litigation providers	External connector layer and provider governance
Discovery-only	Activity Analytics	SFS document gives a name but no detail	Activity taxonomy and field workflow definition

4. Integration vision

The architecture should make source-system access a shared foundation, not a one-off integration per use case. Data lands from SAP BW / Power BI, SAP modules, Growthbook, Saathi, Concur, Complinity, Ariba and external providers into a raw landing zone, then into typed columnar tables, then into governed semantic marts. Agents query the governed marts, not the operational source systems.

5. How we propose to extract data

SYSTEM	PREFERRED ROUTE	FIRST ASK	OWNER NEEDED
SAP BW / Power BI	Read-only extract from existing BW queries, Power BI semantic model or dataflows	Dataset inventory, data dictionary, sample export, refresh cadence and preserved join keys	SAP Basis/BW and Power BI owner
SAP SD	Existing BW sales/billing cube; fallback to S/4 CDS/OData or scheduled SD export	Sales/billing line extract with dealer, material, territory, date, quantity, value and pricing/scheme refs	SAP SD owner
SAP MM	Existing BW purchasing cube; fallback to S/4 CDS/OData or scheduled MM export	PO line extract with vendor, material, HSN, UoM, quantity, price, currency and GRN status	SAP MM owner
SAP FI/CO	Existing BW/Power BI finance model; fallback to controlled FI/CO export	Receivables, collections, ageing, GL/P&L and budget/target metrics at approved grain	Finance FI/CO owner
Growthbook	API or event export	12-month activity event export with employee ID, dealer ID, timestamp, activity type and outcome	Growthbook owner
Saathi	API/export from app DB	Dealer profile, visit notes, voice/call capture status, intervention logs and chatbot logs	Saathi owner plus legal/compliance
Concur	Concur API or scheduled expense export	Expense entries with amount, category, employee, cost centre, date and approval status	Concur owner
Complinity	API or scheduled vendor-compliance export	Vendor licence status, validity date, vendor ID and PAN/GSTIN if available	Complinity owner
Ariba	Ariba API/export	Supplier onboarding status, RFQ events, contracts and supplier-to-SAP-vendor mapping	Ariba owner
External data	Provider API/export	Existing subscriptions, provider shortlist, permitted use and contracting owner	External-data contracting plus legal

6. Exact first ask pack

OWNER	EXACT ASK	USE CASES BLOCKED UNTIL PRESENT
Executive sponsor	Confirm mandate and nominate owners	All
SFS IT lead	Confirm target environment, security path and data-sharing mechanism	All
SAP Basis / BW / Power BI	Confirm read-only extract access off existing SAP BW / Power BI layer	Enterprise, field, procurement and stock
SAP SD owner	Provide masked sales/billing sample and pricing-condition availability	Field #1, #3, #4, #6, #8 and Enterprise
SAP MM owner	Provide masked PO-line, vendor, material and stock samples	Procurement #1, #3, #4, #6 and Field #7
SAP FI/CO owner	Provide collections/receivables sample and official metric definitions	Enterprise, Field #1 and Field #8
Master Data / Governance	Own dealer/vendor/material/employee/HSN crosswalks and product hierarchy	Joined marts, Product/Partner Visibility, EXIM and Vendor ID
Growthbook / Saathi	Provide schemas, 12-month exports and voice/call capture status	Field #1, #2, #4, #5 and #8
Concur / Complinty	Provide export/API options and mapping owners	Procurement #1 and field expense views
External-data contracting	Confirm subscriptions or approve provider selection	Procurement #2, #3, #5 and #6
Legal / compliance	Confirm risk data, voice capture and call recording posture	Procurement #5, Field #4 and Field #5

7. Initial masked data pack

1. 36 months SAP purchase register at PO-line grain.
2. 36 months SAP primary sales and billing at invoice-line grain.
3. 24 to 36 months collections and receivables ageing.
4. Material, vendor and customer/dealer masters.
5. Field hierarchy and Growthbook activity export with SAP-matching dealer and employee IDs.
6. Target and incentive files, scheme circulars, inventory snapshot, Concur SG&A export and Complinty vendor-licence export.

8. Use-case readiness table

USE CASE	FIELDS	AVAILABLE	PARTIAL	UNAVAILABLE	TREATMENT
Enterprise Assistant #1 - Enterprise Chat Assistant (Supply & Sales)	18	8	4	6	Wave 1 build candidate
Field Force #1 - Field Performance Tracking Dashboard	20	13	4	3	Wave 1 build candidate

USE CASE	FIELDS	AVAILABLE	PARTIAL	UNAVAILABLE	TREATMENT
Field Force #4 - Dealer Profiles & Field-Visit Conversation Inputs (Saathi app)	20	12	4	4	Wave 1 build candidate
Procurement #1 - Historical Spend Analysis & Price Insights	26	11	6	9	Wave 1 discovery, Wave 2 build candidate
Field Force #6 - Unified Product & Partner-Level Visibility	15	8	2	5	Wave 2 build candidate after foundation
Field Force #7 - Real-Time Warehouse Stock Visibility	18	7	6	5	Wave 2 build candidate after foundation
Field Force #3 - Pricing, Policy & Scheme Dissemination Chatbot	14	3	4	7	Wave 2 after source-owner validation
Field Force #8 - Early Warning for Sales Performance & Dealer Churn Risk	19	7	2	10	Wave 2 after source-owner validation
Procurement #4 - AI-Led Vendor Identification & Recommendation	23	8	4	11	Wave 2 after source-owner validation
Procurement #3 - AI-Driven Preparation Material for Negotiations	21	5	3	13	External-data discovery before build claim
Procurement #6 - AI-Driven Should-Cost Analysis (across the top 5-10 products)	17	4	2	11	External-data discovery before build claim
Procurement #2 - Real-Time Import Data Analysis	16	3	2	11	Workshop-heavy; do not anchor Wave 1
Procurement #5 - Vendor Creditworthiness & Fraud Check	18	3	1	14	Workshop-heavy; do not anchor Wave 1
Field Force #5 - AI-Enabled Sales Coaching	18	4	2	12	Workshop-heavy; do not anchor Wave 1
Field Force #2 - Activity Analytics (Growthbook + SAP)	17	8	2	7	Discovery-only; no build claim yet

9. Detailed field appendix

Every assumed field is listed below with its status, likely source system, route and ask. Computed fields should not be requested as raw data from SFS.

Enterprise Assistant #1 - Enterprise Chat Assistant (Supply & Sales)

18 fields. 8 available, 4 partial, 6 unavailable. Wave 1 build candidate.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Secondary Sales Transaction	Available	Growthbook Internal Apps	Growthbook event export/API with employee, dealer, activity type, timestamp and outcome mapped to SAP IDs. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Code	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Credit Terms	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
SAP - Financials Extracts (Working Capital / Receivables / GL)	Available	SAP - Financials (GL/P&L) SAP	Primary route: SAP BW / FI-CO extract or controlled receivables and GL export at approved grain. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Quantity	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Value	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Sales Region / Territory Code	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Vendor Region	Available	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Sales Target (TBM x SKU x Period)	Partial	Excel - Targets / Schemes Internal Apps	Controlled file repository or SharePoint/Drive drop; standardise owner, version, period and upload cadence. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Scheme Definition	Partial	Excel - Targets / Schemes Internal Apps	Controlled file repository or SharePoint/Drive drop; standardise owner, version, period and upload cadence. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Dealer BU Presence	Partial	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Vendor Name	Partial	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Assistant Query Log	Unavailable	Conversational AI Surface Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
'What Changed' Weekly Digest	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Dealer Tier (Platinum / Gold / Silver / Bronze)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Enterprise Metrics Dictionary	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Spend Category Tag	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Product Hierarchy (Cross-BU Unified)	Unavailable	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm whether field exists in SAP master/transaction layer; if not, name master-data owner or alternate source.

Field Force #1 - Field Performance Tracking Dashboard

20 fields. 13 available, 4 partial, 3 unavailable. Wave 1 build candidate.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Secondary Sales Transaction	Available	Growthbook Internal Apps	Growthbook event export/API with employee, dealer, activity type, timestamp and outcome mapped to SAP IDs. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Saathi Dealer Engagement Event	Available	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Assigned TBM	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Code	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Name	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Region	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Unit of Measure (UoM)	Available	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Order Date	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Order Number	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Quantity	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Value	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Sales Region / Territory Code	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.

FIELD	STATUS	SOURCE	ROUTE AND ASK
TBM ID / Sales Rep Code	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Sales Target (TBM x SKU x Period)	Partial	Excel - Targets / Schemes Internal Apps	Controlled file repository or SharePoint/Drive drop; standardise owner, version, period and upload cadence. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Scheme Definition	Partial	Excel - Targets / Schemes Internal Apps	Controlled file repository or SharePoint/Drive drop; standardise owner, version, period and upload cadence. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Scheme Participation Record	Partial	Growthbook Internal Apps	Growthbook event export/API with employee, dealer, activity type, timestamp and outcome mapped to SAP IDs. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Material Description	Partial	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Channel Stock Estimate (Primary - Secondary)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Early-Warning Alert Flag (Trending Below Target)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Target Attainment % (Period-to-Date)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.

Field Force #4 - Dealer Profiles & Field-Visit Conversation Inputs (Saathi app)

20 fields. 12 available, 4 partial, 4 unavailable. Wave 1 build candidate.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Secondary Sales Transaction	Available	Growthbook Internal Apps	Growthbook event export/API with employee, dealer, activity type, timestamp and outcome mapped to SAP IDs. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Saathi Dealer Engagement Event	Available	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Assigned TBM	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Code	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Credit Terms	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer GSTIN	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Name	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Onboarding Date	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Region	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Quantity	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Value	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Sales Region / Territory Code	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Scheme Participation Record	Partial	Growthbook Internal Apps	Growthbook event export/API with employee, dealer, activity type, timestamp and outcome mapped to SAP IDs. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Dealer Last Visit Timestamp	Partial	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Dealer BU Presence	Partial	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Dealer Geo-Location (Lat / Lng)	Partial	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Dealer Relationship Profile (Structured)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Dealer Tier (Platinum / Gold / Silver / Bronze)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Dealer Key Contacts	Unavailable	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Confirm whether workflow is live; if not, approve net-new capture and name owner.
Dealer Voice Capture (Saathi)	Unavailable	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Confirm whether workflow is live; if not, approve net-new capture and name owner.

Procurement #1 - Historical Spend Analysis & Price Insights

26 fields. 11 available, 6 partial, 9 unavailable. Wave 1 discovery, Wave 2 build candidate.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Unit of Measure (UoM)	Available	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Line Item Value (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Material Code (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
PO Date	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
PO Number	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Plant / Region (on PO)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Quantity Ordered (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Unit Price (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Vendor ID (on PO)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Vendor GSTIN	Available	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Vendor Region	Available	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Vendor License Status	Partial	Complinty Internal Apps	Complinty API or scheduled vendor-compliance export; map vendor ID, PAN/GSTIN and validity dates. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Vendor License Validity Date	Partial	Complinty Internal Apps	Complinty API or scheduled vendor-compliance export; map vendor ID, PAN/GSTIN and validity dates. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
SG&A Expense Amount	Partial	Concur Internal Apps	Concur API or scheduled expense export; map employee, cost centre, category and date to SAP dimensions. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
SG&A Expense Category	Partial	Concur Internal Apps	Concur API or scheduled expense export; map employee, cost centre, category and date to SAP dimensions. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Material Description	Partial	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Vendor Name	Partial	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
BPV Gap	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Best Price Vendor (BPV) per SKU	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Price Variance (SKU x Vendor x Time)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Product Category Hierarchy	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Spend Anomaly Flag	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Spend Category Tag	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Spend Sub-Category Tag	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Strategic Spend Classification	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Commodity Price Index	Unavailable	Commodity Price Provider External (Market Data)	External provider API/export; confirm provider, terms, refresh, identifiers and history. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.

Field Force #6 - Unified Product & Partner-Level Visibility

15 fields. 8 available, 2 partial, 5 unavailable. Wave 2 build candidate after foundation.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Secondary Sales Transaction	Available	Growthbook Internal Apps	Growthbook event export/API with employee, dealer, activity type, timestamp and outcome mapped to SAP IDs. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Code	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Credit Terms	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Name	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Region	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Unit of Measure (UoM)	Available	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Quantity	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Value	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer BU Presence	Partial	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Material Description	Partial	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Cross-Sell Opportunity Score (per Dealer x BU)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Dealer Cross-BU Revenue Aggregation	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Dealer Tier (Platinum / Gold / Silver / Bronze)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Product Launch Cross-BU Impact Analysis	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Product Hierarchy (Cross-BU Unified)	Unavailable	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm whether field exists in SAP master/transaction layer; if not, name master-data owner or alternate source.

Field Force #7 - Real-Time Warehouse Stock Visibility

18 fields. 7 available, 6 partial, 5 unavailable. Wave 2 build candidate after foundation.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Dealer Code	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Region	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Unit of Measure (UoM)	Available	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Quantity Ordered (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Order Date	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Stock Quantity (per SKU x Warehouse)	Available	SAP - Stock / Inventory SAP	Primary route: BW inventory cube or scheduled stock snapshot by plant, warehouse, SKU and date. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Warehouse / Plant Code	Available	SAP - Stock / Inventory SAP	Primary route: BW inventory cube or scheduled stock snapshot by plant, warehouse, SKU and date. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
In-Transit Stock	Partial	Logistics System Logistics	TMS/vendor export or fit-gap track; do not custom-build until source system/vendor is selected. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Vendor / External Warehouse Stock	Partial	Vendor / External Warehouse System Logistics	TMS/vendor export or fit-gap track; do not custom-build until source system/vendor is selected. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Dealer Geo-Location (Lat / Lng)	Partial	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Material Description	Partial	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Stock Batch / Expiry Date (per SKU x Warehouse x Batch)	Partial	SAP - Stock / Inventory SAP	Primary route: BW inventory cube or scheduled stock snapshot by plant, warehouse, SKU and date. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Warehouse Location (Lat / Lng)	Partial	SAP - Stock / Inventory SAP	Primary route: BW inventory cube or scheduled stock snapshot by plant, warehouse, SKU and date. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Expiry-Risk Stock View	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Low-Stock Alert Flag (per SKU x Warehouse)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Recommended Source Warehouse (per Order)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Stock Source Freshness / Staleness Indicator	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
SKU Substitution Mapping	Unavailable	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm whether field exists in SAP master/transaction layer; if not, name master-data owner or alternate source.

Field Force #3 - Pricing, Policy & Scheme Dissemination Chatbot

14 fields. 3 available, 4 partial, 7 unavailable. Wave 2 after source-owner validation.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Scheme Circular Document	Available	Internal Docs (PDF / Circulars) Internal Apps	Central circular/PDF repository; ingest with metadata, version, applicability and owner. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Code	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Region	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Scheme Definition	Partial	Excel - Targets / Schemes Internal Apps	Controlled file repository or SharePoint/Drive drop; standardise owner, version, period and upload cadence. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Scheme Participation Record	Partial	Growthbook Internal Apps	Growthbook event export/API with employee, dealer, activity type, timestamp and outcome mapped to SAP IDs. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Dealer BU Presence	Partial	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Material Description	Partial	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Chatbot Answer Confidence Score	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Circular Ambiguity Detection	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Dealer Tier (Platinum / Gold / Silver / Bronze)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Discount Calculation (per Dealer x Scheme x Quantity)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Scheme Eligibility Result (per Dealer x Scheme)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Top Scheme Questions (Aggregated)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Chatbot Query Log	Unavailable	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Confirm whether workflow is live; if not, approve net-new capture and name owner.

Field Force #8 - Early Warning for Sales Performance & Dealer Churn Risk

19 fields. 7 available, 2 partial, 10 unavailable. Wave 2 after source-owner validation.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Saathi Dealer Engagement Event	Available	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Assigned TBM	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Code	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Credit Terms	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer GSTIN	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Quantity	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Value	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Scheme Participation Record	Partial	Growthbook Internal Apps	Growthbook event export/API with employee, dealer, activity type, timestamp and outcome mapped to SAP IDs. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Dealer Last Visit Timestamp	Partial	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Call Type Classification	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Churn Risk Factor Breakdown	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Dealer Churn Risk Score	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Dealer Relationship Profile (Structured)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Dealer Tier (Platinum / Gold / Silver / Bronze)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Sales Decline Trajectory (per Dealer)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Target Attainment % (Period-to-Date)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Dealer GST Default Flag	Unavailable	GST Portal (via GSP) External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Dealer GSTIN Registration Status	Unavailable	GST Portal (via GSP) External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Intervention Tracking Log	Unavailable	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Confirm whether workflow is live; if not, approve net-new capture and name owner.

Procurement #4 - AI-Led Vendor Identification & Recommendation

23 fields. 8 available, 4 partial, 11 unavailable. Wave 2 after source-owner validation.

FIELD	STATUS	SOURCE	ROUTE AND ASK
GRN Quantity Received	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
GRN Receipt Date	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Material Code (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Quantity Ordered (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Unit Price (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Vendor GSTIN	Available	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Vendor PAN	Available	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Vendor Region	Available	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
HSN Code (per SKU)	Partial	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Material Description	Partial	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
GRN Quality Rejection Quantity	Partial	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Vendor Name	Partial	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Composite Vendor Risk Score	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Per-Vendor Pricing Pattern	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Vendor Capacity Signal	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Vendor Composite Performance Score	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Vendor Risk Tier	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
EXIM Country of Origin	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
EXIM Import Price (CIF / Landed Cost)	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Commercial Credit Score	Unavailable	Credit Bureau External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
GSTIN Registration Status	Unavailable	GST Portal (via GSP) External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
MCA Company Status	Unavailable	MCA21 External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Ariba RFQ Trigger Event	Unavailable	Ariba Internal Apps	Ariba export/API for supplier onboarding, RFQs and contracts; map supplier IDs to SAP vendor IDs. Ask: Confirm whether workflow is live; if not, approve net-new capture and name owner.

Procurement #3 - AI-Driven Preparation Material for Negotiations

21 fields. 5 available, 3 partial, 13 unavailable. External-data discovery before build claim.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Material Code (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
PO Date	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
PO Number	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Quantity Ordered (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Unit Price (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
HSN Code (per SKU)	Partial	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Material Description	Partial	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Vendor Name	Partial	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
AI-Generated Negotiation Brief	Unavailable	Conversational AI Surface Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Negotiation Outcome Log	Unavailable	Conversational AI Surface Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Buyer Price Variance (Same SKU x Period)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Per-Vendor Pricing Pattern	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Recommended Target Price	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Seasonal Buy Pattern per Commodity	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Commodity Price Index	Unavailable	Commodity Price Provider External (Market Data)	External provider API/export; confirm provider, terms, refresh, identifiers and history. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
EXIM Country of Origin	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
EXIM Exporter / Global Supplier	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
EXIM Import Price (CIF / Landed Cost)	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Agri Commodity / MSP Index	Unavailable	Macro Indicators (Public) External (Market Data)	External provider API/export; confirm provider, terms, refresh, identifiers and history. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Crude Oil / Diesel Price Index	Unavailable	Macro Indicators (Public) External (Market Data)	External provider API/export; confirm provider, terms, refresh, identifiers and history. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
USD/INR FX Rate	Unavailable	Macro Indicators (Public) External (Market Data)	External provider API/export; confirm provider, terms, refresh, identifiers and history. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.

Procurement #6 - AI-Driven Should-Cost Analysis (across the top 5-10 products)

17 fields. 4 available, 2 partial, 11 unavailable. External-data discovery before build claim.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Unit of Measure (UoM)	Available	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
PO Date	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Quantity Ordered (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Unit Price (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
HSN Code (per SKU)	Partial	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Material Description	Partial	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Cost Build-Up Template per Commodity	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Input Cost Pass-Through Coefficient	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Should-Cost Gap (Actual vs. Target)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Should-Cost Target Price (per SKU)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
EXIM Exporter / Global Supplier	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Industrial Electricity Tariff (Region)	Unavailable	Energy / Utility Rate Source External (Market Data)	External provider API/export; confirm provider, terms, refresh, identifiers and history. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Labor Rate Benchmark (Region x Skill Tier)	Unavailable	Industry / Labor Benchmarks External (Market Data)	External provider API/export; confirm provider, terms, refresh, identifiers and history. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Manufacturing Overhead Benchmark	Unavailable	Industry / Labor Benchmarks External (Market Data)	External provider API/export; confirm provider, terms, refresh, identifiers and history. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Agri Commodity / MSP Index	Unavailable	Macro Indicators (Public) External (Market Data)	External provider API/export; confirm provider, terms, refresh, identifiers and history. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Crude Oil / Diesel Price Index	Unavailable	Macro Indicators (Public) External (Market Data)	External provider API/export; confirm provider, terms, refresh, identifiers and history. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
USD/INR FX Rate	Unavailable	Macro Indicators (Public) External (Market Data)	External provider API/export; confirm provider, terms, refresh, identifiers and history. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.

Procurement #2 - Real-Time Import Data Analysis

16 fields. 3 available, 2 partial, 11 unavailable. Workshop-heavy; do not anchor Wave 1.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Material Code (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
PO Date	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Unit Price (PO line)	Available	SAP - Purchase Register SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
HSN Code (per SKU)	Partial	SAP - Material Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Vendor Name	Partial	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
EXIM Benchmark Deviation Alert	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Largest Importers per HSN	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Top Source Countries per HSN	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Trader Premium per SKU	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
EXIM Country of Origin	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
EXIM Exporter / Global Supplier	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
EXIM HSN Code	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.

FIELD	STATUS	SOURCE	ROUTE AND ASK
EXIM Import Price (CIF / Landed Cost)	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
EXIM Import Quantity	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
EXIM Importer Name	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
EXIM Transaction Date	Unavailable	EXIM Data Provider External (Market Data)	External EXIM/customs provider; ingest by HSN, importer/exporter, date, quantity, CIF/landed cost and origin. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.

Procurement #5 - Vendor Creditworthiness & Fraud Check

18 fields. 3 available, 1 partial, 14 unavailable. Workshop-heavy; do not anchor Wave 1.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Vendor GSTIN	Available	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Vendor PAN	Available	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Vendor Region	Available	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Vendor Name	Partial	SAP - Vendor Master SAP	Primary route: SAP BW / Power BI or MM extract. Fallback: S/4 CDS/OData or scheduled PO/vendor/material export. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Composite Vendor Risk Score	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Vendor Risk Tier	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Insolvency / NCLT Filings	Unavailable	Court / Litigation Records External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Litigation Records	Unavailable	Court / Litigation Records External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Commercial Credit Score	Unavailable	Credit Bureau External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Credit Default History	Unavailable	Credit Bureau External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
GST Default Flag	Unavailable	GST Portal (via GSP) External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
GST Return Filing History	Unavailable	GST Portal (via GSP) External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.

FIELD	STATUS	SOURCE	ROUTE AND ASK
GSTIN Registration Status	Unavailable	GST Portal (via GSP) External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
MCA Charges / Encumbrances	Unavailable	MCA21 External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
MCA Company Status	Unavailable	MCA21 External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
MCA Directors / Beneficial Owners	Unavailable	MCA21 External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
MCA Incorporation Date	Unavailable	MCA21 External (Risk/Compliance)	Approved external risk provider/API; requires legal sign-off and entity-resolution keys. Ask: Confirm existing provider or nominate contracting owner and approve provider shortlist.
Vendor Onboarding Workflow Status	Unavailable	Ariba Internal Apps	Ariba export/API for supplier onboarding, RFQs and contracts; map supplier IDs to SAP vendor IDs. Ask: Confirm whether workflow is live; if not, approve net-new capture and name owner.

Field Force #5 - AI-Enabled Sales Coaching

18 fields. 4 available, 2 partial, 12 unavailable. Workshop-heavy; do not anchor Wave 1.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Dealer Code	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Quantity	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Value	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
TBM ID / Sales Rep Code	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Scheme Participation Record	Partial	Growthbook Internal Apps	Growthbook event export/API with employee, dealer, activity type, timestamp and outcome mapped to SAP IDs. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
TBM Visit Log	Partial	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
AI-Generated Coaching Recommendation	Unavailable	Conversational AI Surface Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Activity-Outcome Correlation	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Call Type Classification	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Conversation Quality Framework	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Dealer Relationship Profile (Structured)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Dealer Tier (Platinum / Gold / Silver / Bronze)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Peer Benchmark (Anonymized Cohort)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
TBM Conversation Quality Score (per Dimension)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
TBM Time Allocation Analysis	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Target Attainment % (Period-to-Date)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Coaching Action Item Tracking	Unavailable	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Confirm whether workflow is live; if not, approve net-new capture and name owner.
Dealer Voice Capture (Saathi)	Unavailable	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Confirm whether workflow is live; if not, approve net-new capture and name owner.

Field Force #2 - Activity Analytics (Growthbook + SAP)

17 fields. 8 available, 2 partial, 7 unavailable. Discovery-only; no build claim yet.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Saathi Dealer Engagement Event	Available	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Assigned TBM	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Code	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Region	Available	SAP - Customer / Dealer Master SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Quantity	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Primary Sales Value	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Sales Region / Territory Code	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
TBM ID / Sales Rep Code	Available	SAP - Sales & Distribution SAP	Primary route: SAP BW / Power BI extract. Fallback: S/4 CDS/OData or scheduled SD/customer-master export. Ask: Provide masked sample extract, schema/data dictionary, history range, join keys and refresh cadence.
Dealer Last Visit Timestamp	Partial	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
TBM Visit Log	Partial	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Confirm owner and integration gap; provide sample export plus mapping rules needed to make it usable.
Activity-Outcome Correlation	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Call Type Classification	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.

FIELD	STATUS	SOURCE	ROUTE AND ASK
Dealer Coverage % (Tier-Weighted)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Dealer Tier (Platinum / Gold / Silver / Bronze)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
TBM Time Allocation Analysis	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
TBM Visit Count (Period)	Unavailable	Internal Computed / Derived Computed / Derived	Computed by Conformal in the semantic layer after base data lands; requires definition owner and examples. Ask: No raw-field ask. Confirm definition, formula, owner and examples; Conformal computes it.
Dealer Voice Capture (Saathi)	Unavailable	Saathi App Internal Apps	Saathi DB/API/export; confirm dealer profile, visit notes, voice capture, intervention logs and consent controls. Ask: Confirm whether workflow is live; if not, approve net-new capture and name owner.
